

Hello Sir

How are you sir??Hope all well.Sir, we all are missing u a lot..:(

This is kanika and I want to thank u from the deep core of my heart...as I was one of the luckiest student who got the opportunity to visit such a huge country USA....and it was such a thrilling experience and it was not possible without your efforts, our principal and of course our parents.

We were 14 students from our school and 2 other students from Jaipur and Ludhiana respectively who got a lifetime opportunity to visit NASA and Orlando as a part of our NASA Trek educational trip.Accompanied by our principal-Mrs Meetu Sharma and our group director -Mr Shrutidhara Arya. We stayed there for 11 days. It was a great exposure for all of us.We learnt about space shuttles,space suits,missions,space physiology,astrophysics etc.We also visited various museums and galleries at NASA like US Astronauts Hall Of Fame,Nature and Technology Museum,Early Space Exploration Museum,Rocket garden,etc.

First three days, we went to see the Disney land..and we met with various cartoon characters and took various rides in which my most favorite ride was the deadliest and the fastest roller coaster-THE HULK.It was just an amazing experience.We also saw spider man 4D movie and harry potter 3D movie.It was just a mesmerized experience.

Then we attended our NASA camp which was of 3 days.On first day,we made our own 'paper rockets' and then we all launched them.And from our yellow group,two students were awarded with the newspaper of 1969 and it was a great achievement for our group.On the second day,we were divided in certain groups and we all have to make a strong bridge which can hold weight upto 4 ponds.And in our group the SOLAR FASCINATORS group won and

were awarded. It was a matter of proud as I was one of the student of this group who had won.It was really a great moment for me. On the third day,the trip culminated with the graduation ceremony where certificates,T-shirts,medals were awarded to all.

The other attraction of the trip were Washinton DC where we saw 'The White House';Niagara Falls and The New York city.

Before leaving India some of us were a bit apprehensive about the trip but after coming back to India one can surely say that it was a great experience and exposure altogether with cherished memories throughout the life.

Thanking you,  
KANJIKA MUNDHRA..
