TO WHOM SO EVER IT MAY CONCERN

My son Kushagra who is currently in Birla International School Kishangarh was very excited while going for his educational trip to the United States of America but we were a little worried as it was his first abroad trip without family.

After seeing his experience, I am also thankful to Vacation edutainment for conducting the tour so well that my son enjoyed to the hilt. He was so happy with the itinerary which included a lot of fun activities along with trips to educational places. Apart from their schedule proper care was taken of their meals and stay. His experience was so good that he has already started planning for his next trip.

I recommend vacation edutainment to all the parents who wish great experience for their child.
